ABEL DUTRA

Senior React Native Developer

Londrina, Paraná, Brasil

Email: abel.o.d@outlook.com

LinkedIn: linkedin.com/in/abeldutra

Software Engineer with over 10 years of experience in software development, including more than 7 years specializing in mobile development. Skilled in **React Native**, **ReactJS**, **NodeJS**, and **Flutter**, with a strong focus on delivering innovative solutions. Passionate about interface design and continuously pushing the limits of technology to create exceptional user experiences.

Proffesional Experience

Petros

Senior React Native Developer | 12/2023 – present

Responsible for maintaining and improving the Petros app, focusing on performance optimization, feature implementation, and architectural planning to ensure the app's scalability and reliability.

Technologies

- React Native, Expo, Zustand, React Testing Library
- Azure DevOps, Firebase Analytics, Firebase Cloud Message

Act Digital

Tech Lead – Hands on | 12/2021 – 11/2023

Led a multidisciplinary team in the development of mobile applications, overseeing projects from conception to launch with a focus on **React Native, React JS** and **NodeJS**. Managed all phases of project development, ensuring alignment with client objectives and delivering high-quality solutions.

Technologies

- React Native, Expo, Redux, Context API
- Azure DevOps, Firebase Analytics, Firebase Cloud Message, NodeJS, PostgreSQL, AWS S3
- SCRUM

Accurate Software

Senior Mobile Developer | 01/2021 – 11/2021

Developed cross-platform mobile applications using Flutter.

Technologies

- Flutter, MobX
- Jira, Bitbucket

Lexis Nexis – via Luby Software

React Native Developer | 05/2020 – 12/2020

Developed mobile applications using **React Native**, focusing on delivering responsive, user-friendly interfaces and migrate old implementations in MobX to Redux + Saga. Utilized **Jest** and **Enzyme** for unit testing, ensuring code reliability and application stability.

Technologies

- React Native, Expo, Redux, MobX
- Jira, Bitbucket, Firebase Analytics, Firebase Cloud Message, Confluence
- SCRUM

Luby Software

Full Stack Developer | 07/2019 – 12/2020

Focused on JavaScript stack, working in multiple projects from multiple domains, these projects were based on React-Native, NodeJS and ReactJS.

Technologies

- React Native, ReactJS, NodeJS, Expo,
- Jira, GitHub, Bitbucket, Firebase Analytics, Firebase Cloud Message, Confluence, AWS
- SCRUM

MEI Fácil

Mobile Developer | 11/2017 – 05/2019

Performed maintenance and enhancements on the MEI Fácil mobile app using **React Native**. Integrated native Android functionalities with React Native to optimize performance and improve user experience. Managed push notifications and handled app updates on the Google Play Store.

Technologies

- React Native CLI, Redux + Saga
- Azure DevOps, Firebase Analytics

SS Business

Frontend Developer | 09/2013 – 03/2014
